Resource & Services Directory

... for Industry Partner members and non-members, an online resource guide designed to showcase your products and services. Prospective clients can participate in the online search using name, city, company and/or keyword. Includes 3 to 5 pictures illustrating your products or services and 200 words describing your business. It's easy:

Select the General Category

Select the general category that describes your business—kitchen and bath, lighting or furniture, for example.

Select Specific Company

Select the specific company under the previously chosen category. Industry Partner members are clearly noted. A link can also be purchased to your company Web site.

A Business Information Page is Created

Includes company name, address, phone, fax, product preview photos and a 200-word company description. A link to your Web site is optional.

A Product Information Page is Created

2 pages of photos and descriptions of your products and services.

Designer Finder

... for the ASID Designer member, Designer Finder's simple 3-page format opens your contact information, work samples and the option of linking to your Web site. Clients can also request more information about your firm.

You provide the information and photographs, and **Designer Finder** creates three organized Web pages. All pages are masterfully designed for maximum impact and easy navigation. A **search** is available by first or last name, city, company and/or keyword to customize your client's search. A **featured designer** is randomly selected and then displayed each time the Designer Finder page is refreshed.

Designer Finder is a wonderful opportunity to establish high-tech client relationships without all the hassle!

Designer Portfolio Pages

Includes up to 3 photographs, plus a 50-word description of each photograph. Prospective clients can click on photo for larger image and description. Plus, you can have multiple categories and multiple portfolio pages within each category.

Designer Portfolio Page

Portfolio page with enlarged photo and description.
